Restrictions on transferring an investor's interest in the fund.
Absence of information regarding pricing and valuations.
Delays in tax reporting.
Less regulation and higher fees than mutual funds.

Accordingly, before making an investment in a private fund, potential investors should carefully read the applicable Private Offering Memorandum and subscription application and consult their professional advisor as an investment in a private fund is speculative, not appropriate for all clients, and is intended for experienced and sophisticated investors who are willing to bear the high risks of such an investment.
